

A Great Study Abroad Experience in Argentina

From right to left: Hubertus Halmburger & Matthias Mühlbacher
both EBS London students who spent one of their two semesters of study
abroad in Buenos Aires

"We started a new life in Argentina and we started Polo. Both of us had never ridden a horse before we came to Argentina. With a bit of effort we made our dream come true and we were playing this adrenalin shocking sport and were joining competitions at weekends."

"My SPA gave me the chance to learn a lot about another culture but also helped me to find my way of life and on what I want to focus in the upcoming years. Values differ from home and consequently you step a bit back and you can compare the different ways of life that the world offers. Use the chance to live in another and challenging continent. Amazing country, amazing people, amazing sport, amazing SPA."

Buenos Aires, June 2009, Hubertus Halmburger
