Argan oil entrepreneur

Management graduate

‘Regent’s enabled me to develop all the skills needed to become a catalyst for change, in both business and society, and prove that young Arab women are capable of bringing a positive difference.’

Meryem is the founder of HAYANI Ltd., which sells culinary Argan oil ethically sourced from a UNESCO-protected Moroccan terroir. Raising awareness of this rare, nutritious oil, HAYANI Ltd. pays homage to the Moroccan ‘Argan women artisans’ who for centuries have played a key role in the production of this precious oil. Her postgraduate studies at Regent’s gave her the confidence to launch her business, which has been 10 years in the making.

Succeed

Regent's prepares you for the true global reality of the world. It teaches you to appreciate and to want to learn about other countries – a great life skill when you try to translate your passion to different cultures.

Neku Atawodi

MA Management (2010)

Entrepreneur Neku Atawodi has a number of impressive accolades to her name. She was the world's first black female professional polo player, and – having founded a hotel, crowdfunding platform and non-profit organisation – was named as one of Forbes' Africa's 30 most promising entrepreneurs under 30. Her crowdfunding platform, Malaik, focuses on raising finance for socially conscious businesses. Her charity, Ride to Shine, offers less privileged children sporting and educational opportunities that would otherwise be out of their reach.

Regent's was the place I called home for four years. There is so much diversity here, which really helped me to understand people. I had the chance to interact with people from all over the world, from China, to America to Australia.

Makhdoom Fakhar Zaman

BA (Hons) Global Management /
Global Business Management (2014)

Regent's alumnus Makhdoom Fakhar Zaman was elected as Chairman of Pakistan's Matiari District at the age of 25 – the youngest-ever district council chairman in the country's history. His focus is on healthcare and education. Makhdoom wants the women in the District to receive a high level of education and to have completely equal rights and freedom. He would also like to introduce reverse-osmosis plants to the District, to provide everyone with access to pure drinking water.

Regent's graduates go on to make their mark in many different industries and professions, and very often become trailblazers in their field.

What I learned from most during my time at Regent's was their philosophy: you get as much out as you are willing to put in. We had the facilities and guidance available to us to experiment and reach our full potential as filmmakers.

Isabelle Sieb

BA (Hons) Screenwriting & Producing (2013)

Since graduating, Isabelle has been working as a director and was nominated for Best Drama at the BAFTA Children's Awards 2019 for her work on Sky One's *The Athena*. After working on this show, she was invited by BBC1 to direct the final three episodes of the critically acclaimed show *Shetland*. For Isabelle, Regent's prepared her with the skills and resilience to break into this exciting and competitive industry.

Regent's was one of the most important factors to push start my career. My first collection was actually created in the University's basement studio with just scissors, paper and a load of music.

Ilyes Ouali

BA (Hons) Fashion Design (2018)

Since graduating, Ilyes has set the fashion industry alight with his unique designs. As well as being featured in *Vogue Arabia* and attracting buyers from across the world, he also won the reality TV competition *Fashion Star Arabia 2019*. For Ilyes, the key to his success as a designer was his studies at Regent's. The unlimited access he had to the University's design studios enabled him to develop his own style, which he describes as a fusion of rich, Arabian culture and casual, western style.

It's hard to put into words the extensive amount of experience and knowledge I have gained from my time at Regent's. The campus, the small classes and one-to-one contact with professors, along with the international student and academic body, has shown me that I could have not chosen a better place to pursue my studies.
