

Strategic Projects

Our Purpose

Developing Tomorrow's Global Leaders

Our Proposition

A well-connected, future-facing, entrepreneurial, cosmopolitan and personalised university education in the heart of London

Our Vision

Long-term commercial and reputational growth, driven by rising enrolments and great graduate outcomes

Student Experience

Industry Connectivity

September 2022 / Connections and interactions with leaders in industry will be an integral part of a Regent's education, and to deliver that we will build a strategic industry offer that adds value for both students and partners.

Regent's Curriculum Model

September 2023 / We will build a future-facing educational model that delivers a consistently high-quality, industry connected learning experience fit for future leaders.

Product Portfolio

Collaborative Provision

September 2022 / Working with academic partners in Galileo Global Education and beyond, we will build a high-quality, profitable collaborative provision portfolio.

Online Portfolio

December 2023 / Building on our success with online delivery in 2020, we will develop a business model for delivery of an online portfolio.

Portfolio Strategy

September 2025 / We will improve the market traction of our portfolio and build an efficient market-aligned product development process.

New Ways of Working

Business Intelligence

May 2023 / To ensure we are a data-led, performance-focused organisation, we will improve the way we use data to drive decision-making and measure performance.

People Project Fulfilment

May 2023 / Embedding our new structure and operating model fully, we will build our organisational health and deliver on the objectives of the People Project of a flatter and more collaborative organisation where everyone has agency.

Continuous Improvement

September 2023 / We will improve our ways of working and build an agile culture of continuous improvement to ensure we have an adaptable organisation fit for future growth.

Infrastructure

Technology Roadmap

December 2023 / We will embed good working practices and establish a roadmap to deliver a future technology ecosystem alongside the implementation of priority software solutions.

Campus Strategy

July 2026 / To support new ways of working and delivering our teaching, we will improve our campus facilities to deliver a future-facing environment for staff, students, alumni, and partners.
