## **Course specification**

Academic Year 2023-24

1. Course Overview
2. Why study this course, including course aims and objectives
3. Course structure
4. Exit Awards
5. Learning Outcomes
6. Learning and teaching strategy/ assessment methods (non-regulatory)
7. Relationship to other courses
8. Student support
9. Learning support
10. Opportunities for personal development planning
11. Admissions Information
12. Visas and immigration
13. Assessment and progression regulations
14. Awards criteria
15. Methods for evaluating and improving the quality and standards of teaching and learning
16. Curriculum map

<b>1. Course Overview</b>	
<b>Full course/award title(s)</b>	BA (Hons) Film and Screen Production
<b>Course Code</b>	UBAA_0012_FR
<b>Fees</b>	Please see the tuition fees on the Regent's University London website ( <a href="https://www.regents.ac.uk/admissions/tuition-fees">https://www.regents.ac.uk/admissions/tuition-fees</a> )
<b>Location of study</b>	Regent's Park
<b>Off campus elements / locations</b>	Study abroad opportunity at partner institutions at Level 5. Internship opportunities at Level 5. Trip to film festival at Level 6.
<b>Awarding institution</b>	Regent's University London
<b>Course entry points</b>	September 2023, January 2024
<b>Date of original validation / revalidation</b>	November 2022
<b>Validated until</b>	September 2028
<b>Framework for Higher Education Qualification level of final award</b>	Level 6
<b>Number of credits in award</b>	360 credits
<b>UCAS codes</b>	BA (Hons) Film and Screen Production: <b>A024</b> BA (Hons) Film and Screen Production with Liberal Arts and Media Foundation: <b>A023</b>
<b>Relevant QAA subject benchmark statements</b>	QAA Subject Benchmark Statement Communication, Media, Film and Cultural Studies December 2019
<b>Other external and internal references</b>	QAA Framework for Higher Education Qualifications (FHEQ) Regent's University London Academic Regulations Regent's University London Learning, Teaching and Assessment Strategy Regent's Learning Outcomes (RLOs) (2021) Regent's Assessment Framework (2022)

	Advance HE Principles of Inclusive Curriculum Design Regent's Learning Design Framework: RADAR (2020)
<b>Professional, statutory or regulatory body recognition/accreditation</b>	Not applicable
<b>Mode of study (Full Time / Part Time)</b>	Full time
<b>Language of study</b>	English
<b>Minimum / Maximum duration of course for each mode of study</b>	<p><b>Part time: N/A</b></p> <p><b>Full time:</b>            Minimum - 4 years including the integrated foundation (level 3)            3 years without the integrated foundation (level 3)</p> <p>Maximum*- 6 years including the integrated foundation (level 3)            5 years without the integrated foundation (level 3)</p> <p>* In exceptional circumstances only – refer to Regent's University London Academic Regulations for details</p>
<b>Date of production / revision of this course specification</b>	November, 2022

## 2. Why study this course, including course aims and objectives

### **Ethos**

Our aim is to develop with you to realise your passion for an area of media, film and broadcast and to work with you toward the goal of working in that area.

Our team are all practitioners with a range of backgrounds and specialist skills whose task it is to understand how, where and with whom you best work. From here we use our industry knowledge, contacts and course alumni to enhance your abilities to be in the right place to begin the journey of your life in production.

Small classes, a vocational approach to teaching and high-end equipment and software means that you will be well placed to perfect the roles and practices of industry.

Our location in one of the world's most exciting and leading cities for media and film production means that world famous studios, innovative production companies and post houses are all within visiting distance.

### **Student Learning Journey**

You will be introduced to the basic tenets of film making before exploring a range of possibilities that may include, studio and outside broadcast, documentary and factual, format television and campaign film. There is a real chance for you to identify and develop your own specialist area of interest.

In the first year the core modules will follow a linear learning journey.

You will learn the principles of screenwriting and the process of script planning and development, from conception of idea through logline, outline, treatment and scene breakdown to early part-drafting and refinement of written work. In the second term you will explore further possibilities in narrative, from documentary to studio drama.

Alongside developing the philosophies of storytelling, you will learn the practical skills of camera, sound, lighting and editing. These are the hard and software skills you shall build upon throughout your degree.

The second year continues in the vein of the first in that you will further develop your practical skills as well as explore further the many possibilities that exist in filmmaking. You will take on an in-depth study in the role of the director in a very tangible way as you learn to work with actors and lead a crew. You will also have the opportunity to attend a film festival as a delegate where you will understand the process of film promotion through networking, screenings, masterclasses and visiting the film marketplace.

In your final year you will direct a short film of your own devising, bringing together a team who will best realise your creative vision and provide you with an impressive element for your personal portfolio of work as a fully-fledged filmmaker.

### **Key Features and Benefits**

The benefits you will receive at Regent's University London spread well beyond the classroom.

As well as teaching from professional writers, producers and filmmakers and an opportunity to study at one of our partner institutions in a study period abroad in your second year, you will be given the tools to develop your skills as a writer-producer both on and off campus.

You will be provided with –

Free Adobe Creative Cloud licence

Free Access to Da Vinci Resolve, Movie Magic software

Free Final Draft professional screenwriting software licence

You will have the opportunity to attend Aesthetica Short Film Festival in York in your third year of study

We have partnerships with the world-famous Abbey Road Studios and the Delamar Academy of Hair and Make-up.

We have the ongoing support through scholarship and close links to international screenwriting expert, Robert McKee, author of the seminal screenwriting text, *Story: Substance, Structure, Style and the Principals of Screenwriting*.

You will learn a range of film-making modes including drama, documentary, reportage, campaign, live studio and advertising and you will have access to broadcast standard equipment and software including Red, Sony and Black Magic cameras, Foley Studio, sound mixers and Celeb lighting.

Regent's University London also houses a dedicated TV studio.

### **Who is the course for?**

If you have a desire to work in production as a director, producer, editor, camera operator, sound recordist or any of the myriad of related roles then the course is designed for you. It is not at all essential that you know what role you wish to pursue as the course is a space within which students explore where their calling lies.

If you wish to move beyond film and TV the course offers you the opportunity to understand the transferable skills of project management, marketing and budget management.

### **Employment opportunities**

All of the above will give you a good sense of the wide scope of employment opportunities open to our graduates.

Equipped with the skills listed above, the majority of our graduates (as evidenced in the DLHE data) find jobs for themselves within the film and screen industries.

Amongst our graduates we have, VFX producers, directors, owners of production companies, cinematographers and production managers. Many students go on to study at master's level.

Notable alumni have been nominated for BAFTAs, won EMMYs, worked on major feature films and television series both in Europe and the States.

### 3. Course structure

This is a guide to the overall structure of your course, mandatory elements, modules (noting the terms that they are completed), and periods of assessment.

We have designed our curriculum so that you can gain a deeply personalised education. The BA (Hons) Film and Screen Production is built on latest academic thinking, informed by in-house research. You will expand your knowledge, skills, practice and thinking with three building blocks to make you a great practitioner:

**Subject Core:** You will gain deep expertise in Film and Screen Production through a range of specialised modules.

- Filmmaking modules will give the opportunity to place yourself behind the camera and create a piece of work for the screen.
- Screenwriting modules will take you from a thorough understanding of the screenplay to the development of major pieces of written work.
- Producing modules will teach the specialist production skills that lie behind every film or television production.

**Industry & Entrepreneurship:** Each level of your study includes a learning component that enables you to discover and plan your professional goals:

- During the Spring Term of Level 4 (year 1) you will take the module “Exploring Industry and Entrepreneurship” you will explore the world of work and its future with a view to informing your own potential career or entrepreneurial journey. You will be supported by experts in the Careers, Enterprise and Industry services and the university careers platform, Handshake.
- In the Spring Term of Level 5 (year 2), you will experience a real challenge from the world of work by choosing one of three modules. If you choose “Industry Challenge” you will collaboratively work on a real live industry project so as to project manage, research and test concepts to address the challenge. In the “Enterprise Challenge” option, you will be guided to develop your own concepts, pitch your ideas to an external panel and create an entrepreneurial plan. Finally, you may choose the “Work Placement” module, where you will have the opportunity to acquire a range of work-based skills by taking an approved work placement.
- The Industry and Entrepreneurship learning you would have acquired in the previous two years of your studies is integrated into the final year (Level 6) Major Project. For your Major Project you will have the option to build and develop your unique idea into a full enterprise project or to engage in a more academic Major Project that has an element of Industry/professional application.

**Special Electives:** You will be able to choose from a range of electives that go beyond your core discipline and gain even more future-focused skills. The Special Electives take either a i) skills focus; ii) interdisciplinary focus; iii) or specialist subject focus and are designed to respond to your interests and emerging global trends. These are not tied to a specific discipline and are available to every Undergraduate student in Regent's. They are designed to be hyper-relevant to the world we live and work in –

now and into the future. In this way, you will consider your core subjects from new angles or add more value to your personal brand with a secondary discipline or language.

Languages are central to the university's identity and throughout your degree you will be able to choose to learn one of these: Arabic, Chinese, French, German, Italian, Japanese, Portuguese, Russian or Spanish. Language study enhances your personal and professional development. It enables you to understand and imagine new worlds and to communicate with others to build connections.

At level 4 you will take two electives, one in each term. You can choose to study a language in both terms or take "London Perspectives" in Autumn and "Global Perspectives" in Spring.

London Perspectives will utilise London as a learning platform. Through a combination of on-campus activities and field trips to key venues, you will encounter contributions that the city and its people have made to a range of fields, including your own academic specialism. In Global Perspectives you will learn how to work collaboratively across contexts and cultures to improve the communities we are living.

At Levels 5 and 6 you will take 1 Special elective plus one Language Elective (or a further Special Elective) in each term. Each term offers a choice of twenty special electives at each level (see table below course structure).

In combination your experience in these three blocks will challenge your thinking in unexpected ways.

At Level 4 (Year 1), you will also take "Learning Perspectives", a common module for all undergraduate Regent's courses. This module will induct you to Regent's pedagogic approach. You will acquire discipline specific and interdisciplinary skills, knowledge and approaches to learning which you will apply during your university study and beyond.

Additionally, you have the option to study abroad in the second term of the second year of your degree (Level 5) at one of the University's international partner institutions. In this way you will immerse yourself into a new culture while expanding your knowledge and skills in your field.

### **Optional Integrated Foundation Year (Level 3 or Year 0)**

The optional integrated Foundation year will prepare you for degree-level study, introducing the basics of your destination degree area and a range of key skills and exciting topics that will serve as an introduction to the unique Regent's degree model.

While your subject modules will be with students heading towards the same or related degree courses, the skills and topics modules will include students preparing for a variety of degree courses enabling you to mix, learn and co-operate with peers who will bring a range of different perspectives, knowledges and approaches to the classroom and beyond. Through that experience you will be able to bring that broader understanding back into the learning in your subject modules, just as you will experience at degree level through the interaction between your core course and the Special Electives and Industry & Entrepreneurship modules outlined above.

In your first term you will take a core module related to your destination degree for 20 credits alongside four shared modules covering key skills and knowledges each 10 credits. The shared

modules will cover 'Writing for Success', 'Critical Thinking', 'Cultural Understanding', and 'Politics, Society and Citizenship'.

In your second term you will again take another core module related to your destination degree alongside four shared modules covering key skills and knowledges each 10 credits. The Shared modules for Term 2 are: 'Communications', 'Creativity and Entrepreneurship', 'Cultural Industries', and 'Making Use of Data'.

Level 3 will provide a rich student experience to ensure that you begin your degree at Level 4 to confidently get the most out of our unique degree experience.

In your final year, you will have the opportunity to attend the Aesthetica short film festival. Your final film will be screened in a cinema and may be selected to be shown at the Aesthetica short film festival after your graduation.

The academic year for the course follows the regular university undergraduate calendar (<https://www.regents.ac.uk/admissions/academic-calendars>):

- Autumn Term: September to December.
- Spring Term January to May.

If you are a January starter on Foundation (level 3), you will be able to complete your foundation year in six months by taking a summer term in order to complete the Foundation year by the end of July. This will allow you to start your second year of your study (first year of your degree) in September.

Classes take place from Monday to Friday, typically between 09:00 and 19:00

Assessments are scheduled throughout the academic year. Submission dates can be found on the Blackboard page of the module and the assessment brief.

If you choose to study abroad, you will do so in the Spring Term of Level 5. Some destinations have term times that differ from Regent's University London and may start as late as March and end as late as June

Work Placements would normally take place in the Spring Term of Level 5, although might be scheduled in the summer holiday.

### **Modules**

Your course is composed of a number of modules that each have a credit value. On successfully passing each of these modules, you will gain credits that count towards the total needed for your degree.

One credit equates to 10 notional hours, which is the average time a student will take to achieve the specified learning outcomes. So, if a module is worth 10 credits, then you would expect to spend 100 hours studying this. These will not all be 'taught' hours. You will receive guidance and instruction through workshops, seminars, lectures etc., but you will also need to engage in self-study. A percentage breakdown of teaching contact hours and self-study required on this course is indicated in Section 6.

On an undergraduate degree course, you can usually expect to study 120 credit per level (or year), with no more than 80 credits per term.

### Course modules - Level 3/4/5/6 (Year 0, 1, 2, 3)

#### Course Structure Level 3/Year 0

Term	Common Modules	Credits
Autumn/Spring	FND301, Critical Thinking	10
Autumn/Spring	FND302, Cultural Understanding	10
Autumn/Spring	FND303, Politics, Society and Citizenship	10
Autumn/Spring	FND304, Writing for Success at University	10
Spring/Summer	FND305, Communication	10
Spring/Summer	FND306, Creativity & Entrepreneurship	10
Spring/Summer	FND307, Cultural Industries	10
Spring/Summer	FND308, Making Use of Data	10
<b>Total common module credits</b>		<b>80</b>
Term	Core Modules	Credits
Autumn/Spring	<u>Liberal Arts &amp; Media Foundation</u> FND313, Liberal Arts and Media 1	20
Spring/Summer	<u>Liberal Arts &amp; Media Foundation</u> FND314, Liberal Arts and Media 2	20
<b>Total core module credits</b>		<b>40</b>
<b>Total Credits for Level 3</b>		<b>120</b>

Exit awards and learning outcomes achieved (if appropriate)

There is no exit award at Level 3. Level 3 is available to students who do not meet the entry into Level 4. This level enables you to bring your academic standing to an undergraduate level as well as equip you with the necessary knowledge and skills to cope with the demands of higher education. Level 3 credits do not count towards the undergraduate degree credit total.

#### Course Structure Level 4/Year 1

Term	Core Modules	Credits
Autumn	FLM408, Visual Storytelling	20

Autumn/Spring	ENGXB6, Business English: Professional Writing	10
Autumn/Spring	ENGXB4, Business English/ ENGXB5, Advanced Business English	10

#### 4. Exit awards

For UG refer to section E9 of the Academic Regulations, note if the exit awards are different to this

#### 5. Learning outcomes

This is a guide to the more specific knowledge and skills you will gain if you take full advantage of the learning opportunities available to you.

Learning outcomes will tell you what we expect you to know and/or be able to do once you have completed a learning process (i.e. a module, a level or the entire course) (QAA, 2018). Teaching and assessments are designed accordingly to enable you to demonstrate that you have adequately met these outcomes.

The learning outcomes that you will be expected to demonstrate at the completion of each level of your studies, are listed below. Each module that you will study, has developed 2-4 distinctive Module Learning Outcomes (MLOs). Each MLO is mapped against an equivalent Regent's Learning Outcome from the list below. We have ensured that at each level, all the compulsory elements of your course, assess in their totality all ten learning outcomes (see section 16).

#### LEVEL 3 OUTCOMES

<b>RLO1 Collaboration</b>	Determine collaboration and networking opportunities in well-defined settings
<b>RLO2 Innovation</b>	Recognise and describe value propositions, combining curiosity and creativity.
<b>RLO3 Professional Development</b>	Show the value of managing your own learning and of planning your personal and professional development
<b>RLO4 Decision-making</b>	Explain different ideas, including your own, as part of decision making
<b>RLO5 Communication</b>	Communicate appropriately for your audience and purpose in multicultural and/or international settings
<b>RLO6 Digital Data and Tools</b>	Choose appropriate digital tools and data to present your ideas in familiar and well-defined contexts

<b>RLO 7 Discipline Knowledge</b>	Explain pre-defined theories, concepts and facts in your field of study relevant to the task
<b>RLO8 Discipline Skills</b>	Use a limited-range of established discipline-specific knowledge, techniques and tools for practical purposes
<b>RLO 9 Interdisciplinary Perspectives</b>	Describe perspectives from a range of disciplines in well- defined scenarios
<b>RLO10 Human and Environmental Impact</b>	Demonstrate the impact of human activity on people and on the environment.
<b>LEVEL 4 OUTCOMES</b>	
<b>RLO1 Collaboration</b>	Explore collaboration and networking opportunities to generate ideas for given situations.
<b>RLO2 Innovation</b>	Define and compare value propositions, combining curiosity and creativity.
<b>RLO3 Professional Development</b>	Identify opportunities for your learning and your personal and professional development
<b>RLO4 Decision-making</b>	Investigate and contrast different ideas, including your own, to inform decision making
<b>RLO5 Communication</b>	Communicate your arguments/reasoning, orally and/or in writing in multicultural and/or international settings within familiar and well-defined contexts
<b>RLO6 Digital Data and Tools</b>	Use digital tools and data in familiar and well-defined contexts
<b>RLO 7 Discipline Knowledge</b>	Explain theories, concepts and facts in your field of study relevant to the task
<b>RLO8 Discipline Skills</b>	Use established discipline-specific knowledge, techniques and tools for practical purposes
<b>RLO 9 Interdisciplinary Perspectives</b>	Identify and contrast perspectives from different disciplines in given scenarios
<b>RLO10 Human and Environmental Impact</b>	Explore the impact of human activity on people and on the environment.
<b>LEVEL 5 OUTCOMES</b>	
<b>RLO1 Collaboration</b>	Collaborate and use appropriate networks to solve challenges
<b>RLO2 Innovation</b>	Analyse and develop value propositions, combining curiosity and creativity.
<b>RLO3 Professional Development</b>	Develop a plan for your professional development

<b>RLO4 Decision-making</b>	Analyse and reflect on different ideas, including your own, to inform decision making
<b>RLO5 Communication</b>	Communicate <i>effectively</i> both orally and/or in writing in multicultural and/or international settings within unfamiliar and well-defined contexts
<b>RLO6 Digital Data and Tools</b>	Analyse and use digital tools and data responsibly in unfamiliar, well-defined contexts
<b>RLO 7 Discipline Knowledge</b>	Examine and apply theories, concepts and facts in your field of study relevant to the task
<b>RLO8 Discipline Skills</b>	Employ discipline-specific knowledge, techniques and tools for practical purposes
<b>RLO 9 Interdisciplinary Perspectives</b>	Investigate and apply perspectives from different disciplines in multifaceted scenarios
<b>RLO10 Human and Environmental Impact</b>	Analyse the impact of human activity on people and on the environment.
<b>LEVEL 6 OUTCOMES</b>	
<b>RLO1 Collaboration</b>	Collaborate and build networks to solve challenges in complex settings
<b>RLO2 Innovation</b>	create and implement value propositions, combining intellectual curiosity and creativity
<b>RLO3 Professional Development</b>	Articulate a plan which encompasses opportunities for your professional development
<b>RLO4 Decision-making</b>	Formulate informed decisions using critical and reflexive thinking
<b>RLO5 Communication</b>	Communicate <i>effectively</i> both orally and in writing in multicultural and/or international settings.
<b>RLO6 Digital Data and Tools</b>	Appraise and utilise digital tools and data in your professional and social contexts.
<b>RLO 7 Discipline Knowledge</b>	Critique and synthesise theories, concepts and facts in your field of study relevant to the task
<b>RLO8 Discipline Skills</b>	Combine and employ a wide range of discipline-specific knowledge, techniques and tools for practical purposes
<b>RLO 9 Interdisciplinary Perspectives</b>	Integrate perspectives from different disciplines in multifaceted scenarios.
<b>RLO10 Human and Environmental Impact</b>	Evaluate the impact of human activity, including your own, on people and on the environment.

## **6. Learning and teaching strategy/ assessment methods (non-regulatory)**

This is a guide to the academic opportunities available to help you achieve the overall aims and objectives of the course and the intended learning outcomes in Section 5. It is also a guide to the assessment methods used to test your achievement of the intended learning outcomes. In order to meet the full intended learning outcomes of the course, you will be expected to study independently, participate in class discussions, ask for support in academic skills if required and engage with your personal tutors.

The Regent's Learning, Teaching and Assessment Strategy (LTAS) outlines the vision of Regent's pedagogic and assessment approach. It strives to provide you with a well-connected, future facing, entrepreneurial, cosmopolitan and personalised education whereby you can achieve your full potential. It comprises of fourteen priority areas:

1. take a personalised approach to student learning: finding out about their previous learning and experience, offering individual guidance to help them plan their journey through university and beyond.
2. involve students in decisions about their learning, by giving them access to a dashboard of data on their progress, explaining our teaching methods and giving students increasing autonomy to create their own educational journey.
3. enhance student research, thinking and communication skills through their specialist subjects, in a culturally diverse, global context.
4. ensure that students have the knowledge and skills to bring more than one perspective to any challenge, both through their specialist studies and through specially designed, team-taught activities to prepare them for future impact in their chosen personal mission.
5. embrace a teaching approach where students collaborate with each other and with the tutors, and where diverse learning needs can be met
6. provide learning activities which are active, often based on finding responses to real-world challenges; these activities will cross subject boundaries, and challenge orthodoxies by providing opportunities for students to explore alternative ways of thinking; they will allow students to take risks and have fun.
7. make use of flexible learning and novel on-campus space configurations to promote experimentation and discovery; and we will take learning outside the classroom, with London as an unparalleled resource.
8. provide students with tutors who are expert researchers or practitioners in their fields, who will facilitate learning, and who are engaged in continuous professional development both as teachers and in their specialist fields.
9. embrace the potential of digital technologies in supporting learning
10. enhance students' global network and intercultural communication skills, through engagement with our international partnerships and offering tuition in many different languages
11. base assessments on real-world tasks, projects and challenges, relevant to the future
12. help students develop the capacity to evaluate their own work and learning, through in class activities (in self-assessment, student-to-student assessment and academic integrity)
13. provide feedback from different sources on student work, recognising what they do well and providing guidance to help learning and improve student work

14. offer students an achievement portfolio where all their feedback is collated in one place, helping them to make sense of the feedback, and giving them something they can take with them when they leave Regent's to build evidence they can use for future employers

Your course is premised on the Regent's Curriculum model which defines the structural design of our Undergraduate degrees and allows us to deliver the above learning & teaching priorities. Your course provides you with in-depth knowledge and skills in your field through specialised subject cores whilst at the same time it exposes you to multi-disciplinary breadth through a range of future facing special electives and language options. Additionally, it develops your professional capabilities through an integrated approach to Industry and Entrepreneurship; at each level you will take modules that enable you to explore the world of work and engage you with real work challenges.

Your course therefore actively encourages you to connect all areas of your learning and build your customised, coherent high-impact learning narrative in the pursuit of a personal and professional mission.

The Regent's Graduate Attributes express our educational purpose and identity which is to ensure that Regent's graduates are:

- Collaborative and networked
- Creative and entrepreneurial
- Critical and Reflective
- Culturally and socially versatile
- Digitally agile
- Well-informed, skilled and fluent across disciplines
- Responsible and environmentally conscious

To realise this purpose, we have articulated these Attributes into a set of ten observable and measurable university wide learning outcomes, The Regent's Learning Outcomes (RLOs). They were designed using national references to ensure that they are appropriated for the award of a UK degree and that your achievement is monitored against those national references. Teaching and assessments are designed accordingly to enable you to demonstrate that you have adequately met these outcomes.

The learning and teaching strategy for this course is based upon the development of core competencies necessary to succeed as a screenwriter/producer in the field of film, television and digital media production. These core competencies are applied through practice that affords you opportunities to explore the range of creative decisions made on any given project and reflect upon these decisions as part of a process of embedded creative portfolio development.

As you progress through the levels of the course you will be given ever greater autonomy to explore, within a defined set of assessment briefs, the relationship between knowledge,

reflective practice, core competencies and imaginative expression. This will enable you to develop a body of work that is personal to you and which evidences the course outcomes.

While the teaching and learning techniques used in and out of the classroom and workshop may vary widely across the course, all modules aim to develop your problem-solving, collaboration skills, interpersonal competencies, relationship-building and critical reflection and analysis. Modules are informed by an emphasis on flexible approaches to teaching where, for example you might be developing an original screenplay in the morning, planning or filming a sequence in the afternoon, then exploring a piece of technology in order to underpin both activities. All of these elements will be taught by a range of academic and industry practitioners.

Well established techniques include classroom methods such as lectures, seminars, workshops, studio practice, film, screenings, field trips, tutorials, and group work assignments. These methods are designed to offer you a wide range of learning and teaching methods suitable to the demands of the desired learning outcome(s) and affording you a diversity of approaches including an embedded practice in peer-to-peer formative assessment across most modules.

### **Breakdown of teaching methods by percentage per level**

The following breakdown is a guide to how much time you will spend doing each teaching and learning method. The exact amount of time spent in taught/practical lessons or self-study will depend on the elective modules that you take.

- 'Taught' learning typically refers to timetabled sessions led by a member of academic staff, such as workshops, seminars, masterclasses, lectures and tutorials
- 'Practical' sessions are also timetabled and led by an academic member of staff, but are focused on practical work such as studio and laboratory work, field work undertaken on external site, external visits, etc
- 'Self-Study' is time dedicated to self-directed learning that is guided by your own requirements to further your studies and complete assignments. This could include preparation for class, background reading, research and preparation for assessments, and writing.

<b>Level 3</b>		<b>Level 4</b>		<b>Level 5</b>		<b>Level 6</b>	
Taught	32%	Taught	20%	Taught	15%	Taught	10%
Practical	0%	Practical	16%	Practical	21%	Practical	26%
Self-Study	68%	Self-Study	64%	Self-Study	64%	Self-Study	64%

### **Course management and teaching staff**

The course is managed by a Director of Content and a Course Leader.

Tutors in all areas are industry practitioners. You will be taught by screenwriters, producers, film directors, editors, cinematographers, filmmakers.

Many of our teaching team have written and/or produced for film and television as well as having written books and papers relating to their areas of expertise.

Staff are, in general, educated to master's or doctoral level and have relevant industry experience. In addition, most of our staff hold a Fellowship of Advance Higher Education (Advance HE) from Fellow to Principal Fellow. We also encourage our teaching staff to undertake the Postgraduate Certificate in Higher Education.

You will be allocated a personal tutor, who will meet you on a one-to-one basis at various stages throughout the academic year and give you guidance and advice to support your ongoing personal and professional development throughout your studies at Regent's University London.

### **Assessment strategy and methods**

Assessment is a positive element of your education. We are committed to delivering authentic assessment and challenge-led learning. This ambition is reflected in our new [Assessment Framework](#) where we outline the practices and expectations which will guide and enhance assessment, one of those practices being to move away from unseen written examinations as an assessment methodology and moving towards more authentic challenges. We're in the business of nurturing future leaders who can use what they've learned to shape the world – authentic assessment and real-world challenges create a safe lab for that learning.

Assessment can be a learning tool and a guide to **understand and evaluate** the quality of your work and your progress. Your course will offer a variety of assessment methods that support the learning required by the learning outcomes. We will provide you with feedback on your assessment's performance to guide your learning journey. You will play an essential part in our assessment strategy as an active feedback recipient, and we will work together to determine how you can progress further from the feedback received.

There are some differences in the purposes of the assessment you will encounter: some assessments are formative and others are summative.

**Formative assessments** will provide you with an opportunity to receive feedback on the progress of your work through the completion of an assessment or assessment tasks. These are developmental in nature as they offer information to help you identify next steps in learning and how to do better in future work which is why no grades are given. Formative assessments feed directly into summative assessments. All assessment tasks include formative assessment opportunities.

**Summative assessment** is the evaluation of your learning at a particular time, measured against specified learning outcomes. You will be awarded a grade and numerical mark for each summative assessment on each module. The grades you receive for assessed work on each module are added up to give a final grade for the module. Assessment also determines your suitability to progress onto the next year of your course and, at the end of the course, it enables the University to determine your degree award.

All assessments will incorporate effective and constructive feedback that relates to the module-specific or task-specific marking criteria previously made available in the assessment briefs. Feedback for summative assessment will explain the reason for the mark given but it can also provide information about how to improve the work for future assessment tasks.

The table below lists possible ways your tutors will facilitate the delivery of feedback on your formative assessments:

<b>Forms of Assessment</b>	<b>Ways to deliver feedback on formative assessments</b>
Written Assignments (various types)	Feedback on draft submitted on blackboard by a specified date
	Feedback initiated through peer to peer reviews during workshop activity
	Verbal feedback (face to face or recorded), where student makes a record of key points and shares with the tutor
Presentation	Presenting a practice run in class, receiving feedback from peers and/or tutor
	Formative feedback on recordings of presentation practice submitted on Blackboard by a specified date.
	Feedback on students' own assessment on the recorded practice presentation (both submitted on Blackboard by a specified date)
Creative Work	Feedback from tutors/peers through an exhibiting event. Students make a record of key points and shares with the tutor
	Feedback on student's own assessment of their work
	Verbal feedback (face to face or recorded), where student makes a record of key points and shares with the tutor

You will receive feedback in orderly and timely fashion (approximately 3 weeks from submission date). We will notify you of the feedback release day in your assessment briefs. Assessments on the Film & Screen Production course's core modules will generally comprise one of the following pieces of work:

- A Film
- A Script
- A verbal or written pitch
- A filmed piece of work
- A portfolio of production documents
- A creative portfolio

All submissions will be clearly explained and dates of submission clearly expressed in an assessment brief which each student will receive at the commencement of each term. The assessment brief will outline the requirements for each module, the dates of submission and the rationale for marking on each piece of work.

Where group work is involved, we would also require you to complete a peer assessment of other members of your group and this will be taken into account when final marks are allocated.

If you are on a support agreement (SSA) you may be offered alternative assessments in accordance to the Guidelines of the University's Disability Guidelines for Alternative Forms of Assessment.

The course includes the opportunity to undertake a term of study abroad at one of our international partner institutions in the second term of Year 2 (Level 5). You must apply and confirm your Study Abroad option by the end of first term of Year 1 (Level 4). The curriculum and credits in the partner institution will be mapped to your modules as required by the course. Your Study Abroad application and learning agreement will be subject to the discretion and approval of your Director of Content or Course Leader. All grades received at an international partner university will be converted to an equivalent Regent's University London grade, in accordance with the institutional grading scale and grade conversion table. The average grade will represent 50% of the overall mark associated with Level 5.

If you choose the 20-credit "Work Placement" module in the Spring Term of Level 5, you will be assessed according to the assessment methods specified in the equivalent module specification.

#### **Ethical approval of research**

All research and other academic activities conducted within and outside the University by students at Regent's University London should comply with Regent's ethics policies and process prior to its commencement. This will include, but is not limited to, all academic work involving human or other living participants, all industry live projects and all experiments, investigations and procedures involving human or other living participants, or data relating to such living entities.

### **7. Relationship to other courses**

Some courses share modules or have other connections to other courses. This is a guide to whether this is applicable for your course.

The Film and Screen Production degree course shares a number of modules with the Screenwriting and Producing course. This means that you will work alongside other members of the filmmaking community at Regent's University London and get to know others with interests and skills which could compliment your own as you gain greater autonomy in the development and production of your filmed work.

Shared modules are:

Level 4

Visual Storytelling

Production Skills

Visual Forms

Level 6

The Short Film: The Film and the Filmmaker

The Short Film: The Film and the Market

Alongside these modules, The Creative Producer module at Level 5 is partly shared with the Film and Screen Production course as all students across the two courses will have the opportunity to attend the Aesthetica Film Festival together. Assessments on this module will be related to this trip.

You will also work in close proximity to the students on the Acting for Stage and Screen degree course and collaboration between students on the courses is encouraged. They may take part in your films whilst they may ask you to contribute to their projects.

At the foundation level (level 3), there are eight shared modules that are common to all integrated courses.

The Level 4 Learning Perspectives, the Regent's Special Electives, the Language electives and the Level 5 Industry and Entrepreneurship modules are offered on all Undergraduate courses, in addition to the Subject Core modules for individual courses.

## **8. Student support**

We want you to make the most of your time at Regent's and we also know that sometimes life at university can be hard. We can give you the support and you need, on academic study, language skills, careers, disabilities, mental health, gender, sexuality, finance and many other issues.

Regent's Student Hub will be the first port of call for the majority of your needs. Staff in the Hub can either deal with your enquiry directly or point you to one of our services for more help.

Our support services include:

- Personal tutor scheme
- Student Services
- Academic Skills
- English for Academic Purposes
- Careers advice, including placements
- Disability support
- Accommodation
- Student Union

For more information about life at Regent's and the services we offer, visit:

[regents.ac.uk/information/student-life/for-current-students](https://regents.ac.uk/information/student-life/for-current-students)

## **9. Learning support**

Regent's offers a variety of different facilities and technologies to support your studies. These include seminar rooms, lecture theatres, collaborative workspaces, the library, IT labs and specialist software.

As a student on the Film and Screen Production course you will have access to the TV Studio, the Sound booth, a number of dedicated editing suites and filmmaking equipment from our

dedicated Media Services team which comprises broadcast standard equipment and software including Red, Sony and Black Magic cameras, Foley Studio, sound mixers and Celeb lighting. All key teaching areas are readily accessible.

You will also be provided with –

Free Adobe Creative Cloud licence

Free Access to Da Vinci Resolve, Movie Magic software

Free Final Draft professional screenwriting software licence

If you require support or advice regarding accessing campus facilities, please speak with our disability support officer, so we may address your concerns. [regents.ac.uk/information/student-life/for-current-students/disability-information](https://regents.ac.uk/information/student-life/for-current-students/disability-information)

The Library at Regent's supports teaching and learning at the University. Our relevant and extensive collections, flexible study spaces and knowledgeable staff can help you achieve your academic goals. During term time, the Library is open until late in the evenings. During busy exam periods, it is open 24/7. Most areas are fully accessible to people with disabilities and wherever there are challenges we work with individual(s) to overcome, rearrange or support to facilitate good and safe access.

Regent's uses Blackboard as its virtual learning environment (VLE), where you will find learning materials and content for your modules. You will also submit your coursework online and receive feedback through Blackboard.

To support your studies and time at Regent's, there is a free mobile app which can be downloaded from the Apple or Android stores, which will provide information about the University, the campus and your studies.

Regent's has IT labs where you can use our computers and there are dedicated areas for you to use your own laptops and tablets. The campus has free Wi-Fi, including most areas of our extensive gardens, so any area can be adapted into a student study space. Regent's is a member of the Eduroam network, so you can connect to this service to access Wi-Fi worldwide.

For more about Regent's learning resources, visit: [regents.ac.uk/about/learning-resources](https://regents.ac.uk/about/learning-resources)

## **10. Opportunities for personal development planning**

The Film and Screen course at Regent's University London enables you to build your own course tailored to your own needs and career choices.

Group work, particularly in modules which have filmed work as an output, will allow you to experiment with different roles on set and develop your specialisms as you collaborate with others.

Major projects in the third year will give you the opportunity to build a portfolio of work which will showcase your talents as a graduate both as a filmmaker.

A wide selection of elective modules and the option of a work placement at Level 5 will provide you with greater choice and the opportunity to construct your own degree course around the core modules on offer.

Over the course of the course, you will hear from a host of industry speakers, many of whom may be recent graduates, who will be able to guide you in any future career choices you may make.

You will also be allocated a personal tutor who will be your point of contact for any issues you may have outside of your academic studies.

### **Extracurricular activities**

You will also have opportunity to engage with extracurricular activities on and off campus organised by staff from across Regent's. These include but are not limited to: prominent guest speakers' presentations, conferences, competitions, university societies, Student Union membership and student representation. Participation in competitions or engagement with societies and Student Union are a great way to develop a host of skills and evidence demonstrating your diverse capabilities and can contribute to fruitful personal development planning.

### **Careers, Enterprise and Industry**

The Careers, Enterprise and Industry team supports students' individual career aspirations through a personalised approach. We partner with students to help them to acquire attributes, tools and skills to be able to make informed decisions and manage their entire career.

### **Handshake – jobs, employers, events and resources**

We've partnered with Handshake – our careers platform – to offer you:

- Careers and enterprise resources – giving you all the information you need to succeed
- Local and international jobs, internships, and placement opportunities
- Networking opportunities with companies of all sizes, as well as start-ups
- Careers and enterprise events and workshops
- The chance to create and build your own profile to personalise the type of content you see, the employers you engage with, and the types of job opportunities highlighted to you.

### **Placements and internships**

Students looking to undertake a placement or internship as part of their studies can receive support in developing their application, as well as advice and guidance when sourcing suitable placement and internship opportunities.

We also offer similar support for students who wish to enhance their learning by undertaking an internship during the summer period.

### **Careers appointments and drop-in sessions**

Students can book an appointment with a career consultant to discuss anything career-related or book some career coaching sessions as a student and/or after they graduate. They are encouraged to engage with the careers team as early as possible in their study. It can take time to gather an array of career management skills, and to be empowered to explore options and plan their next steps.

Careers appointments are booked on Handshake and are either virtual on Handshake or in-person. Appointment types include, but are not limited to, career conversations, entrepreneurship and enterprise, career coaching, placements and Internships, applications feedback, and interview preparation.

The Careers, Enterprise and Industry team has an open-door policy. Students can drop in anytime during business hours to ask a quick question about anything careers, enterprise, or industry related.

### **Enterprise and entrepreneurship**

Regent's is excited to provide a comprehensive, entrepreneurial offer for students and graduates.

This flagship initiative is known as **The Founder's Programme** – a hands-on programme to support students and graduates interested in starting their own enterprise, with tailored guidance, access to live sessions with in-house consultants and guest speakers, mentoring, coaching and experiential bootcamps.

The programme is a dynamic, immersive learning experience where students will build the foundations of their start-up with a global team and get a chance to pitch to investors at the end of the programme – allowing you to network and connect with peers, alumni, industry leaders and start-up founders.

### **Co-working spaces**

Regent's also offers a dedicated co-working space available on campus with an opportunity to work on your business idea while collaborating and sharing ideas with peers. We also have a strong network of partnerships with some of the most noted co-working spaces in the country.

## **11. Admissions Information**

Details of the University's entry requirements can be found at: [Entry Requirements](#)

## **12. Visas and immigration**

At Regent's, you will be part of a truly international community, with the opportunity to make friends and contacts from around the world.

If you require a visa to study in the UK, please visit the Visas and Immigration page on the website: [regents.ac.uk/study/international-students/visas-and-immigration](https://regents.ac.uk/study/international-students/visas-and-immigration)

### 13. Assessment and progression regulations

You will be assessed on how well you are achieving the intended learning outcomes at different stages throughout your time of study at Regent's

In order to continue with your studies, there are minimum requirements to be met in order to progress to the next level of your course. The current progression regulations are published within the Academic Regulations on our website at the link below. These are subject to review and amendment each year. We will let you know if there are any major changes to the regulations that may affect you.

<https://www.regents.ac.uk/policies>

You will be provided with guidelines on what you need to achieve in each assessment to ensure you receive a good mark. A generic description of each grade can be found at the [Regent's Common Assessment Scale](#).

### 14. Award criteria

To complete your course, you will need to achieve 360 credits for an undergraduate degree. You must also meet the requirements of any specific regulations as stated under the Assessment and progression regulations section.

For further details on award requirements, please see the Academic Regulations, available at on our website at the link below. The regulations are subject to review and amendment each year. We will let you know if there are any major changes to the regulations that may affect you.

[regents.ac.uk/about/governance/academic-governance/academic-regulations](https://www.regents.ac.uk/about/governance/academic-governance/academic-regulations)

### 15. Methods for evaluating and improving the quality and standards of teaching and learning

All quality assurance policies and procedures are found in the University Academic Regulations. The current versions are available at the link below. The regulations are subject to review and amendment each year. We will let you know if there are any major changes to the regulations that may affect you.

<https://www.regents.ac.uk/policies>

Regent's University London operates a number of institutional processes for ensuring and enhancing its academic quality standards. These include: course (re)validations, course modifications, course monitoring, student feedback systems and external examining.

#### *Course (re)validations*

The University has a formal process to approve a new course or reapprove an existing course of study. This involves a panel of academics from within and outside Regent's to ensure that your course is of appropriate academic standard and of a high quality.

### *Course modifications*

We listen to your feedback and make changes to your course as appropriate. You will be consulted on any significant changes to your course which may affect the outcomes of your study. All changes to courses or modules are subject to approval through Regent's academic governance structures.

### *Course monitoring*

In order to ensure courses continue to meet their academic and professional aims and objectives, Directors of Content/Course Leaders are required to prepare an annual monitoring report (AMR). The reports include module feedback as well as external examiner reports and responses. They are reviewed at faculty and institutional level.

### *Student feedback systems*

Students play a key role in the University's processes for enhancing the quality of its educational provision and broader student experience. There are multiple ways for you to provide feedback on your experiences at module level (e.g. through questionnaires), course level, through student representatives and at course committees. Final-year undergraduate students (Level 6) are invited to take part in the National Student Survey (NSS).

### *External examiner reports*

External examiners ensure that Regent's standards and quality processes are appropriate and are of a standard comparable to those of other higher education institutions. There are two types of external examiners. One reviews subject level assessment and the other reviews institutional level processes and attends the progression and finalist boards.

An annual external examiner report is produced at the end of every academic year at levels 5, 6 and 7. These are made available to students through the AMRs.

## **16. Curriculum map**

This table indicates which study units assume responsibility for delivering the learning outcomes detailed in Section 5.

	<b>Module</b>	<b>LO1</b>	<b>LO2</b>	<b>LO3</b>	<b>LO4</b>	<b>LO5</b>	<b>LO6</b>	<b>LO7</b>	<b>LO8</b>	<b>LO9</b>	<b>LO10</b>
