Status	Elective				
Teaching Period	Spring/Summer				
Courses on which the module is taught	Study Abroad				
Prerequisite modules	None				
Notional learning hours	200	Credit value	20	ECTS Credits	10
Field trips?	<i>None</i>				
Additional costs	<i>None</i>				
Content notes	<i>N/A</i>				

1. Module description

This placement module will give you the opportunity to experience what it is like to work in your chosen industry, while developing your employability and increasing your graduate career prospects. It will provide you with a deeper understanding of your subject and allow you to acquire greater knowledge of your chosen industry.

The work you undertake on this module will enable you to apply your knowledge and intellectual and practical skills to real life challenges to develop a critical appreciation of how an organisation operates and evolves. The Placement module requires you to complete a fixed period of time in industry (as agreed with the placement provider and/or employer) while also having weekly contact with a Module Tutor.

2. Learning Outcomes

Upon successful completion of this module, you will be able to:

Collaboration (MLO 01):

Collaborate and use appropriate networks to solve work-based challenges

Innovation (MLO 02):

Analyse and develop value propositions for practical challenges in the workplace, combining curiosity and creativity

Professional Development (MLO 03):

Develop a critically reflective action plan which expresses your ambitions for your professional development.

Interdisciplinary Perspectives (MLO 09):

Investigate and apply alternative perspectives of the varied roles, functions, and multifaceted scenarios within an organisation.

3. Learning and teaching methods, and reasonable adjustments

Learning hours				5
Directed learning				5
Workshops/ classes/ seminars/ lead events	Supervision	Studio time	Other	
2	3			
Guided/Self-guided learning				95

Please note, a substantial amount of guided/self-guided learning will be expected to take place through your duties on the placement itself.

4. Assessments and weighting, reasonable adjustment, and feedback methods

Assessment 1: Project

Weight (%): 50%

Word Count or Equivalent: maximum 2,500 words or equivalent

Working with your tutor, you will identify a question, or focus on an area of the business, that is of interest to you and the employer. You will produce a critical appraisal of the placement organisation in relation to your question or focus of study. The form of your submission will be agreed with your tutor and presented in a format that is appropriate to the placement.

Reasonable adjustments for the assessment will be confirmed with students that have a support plan in place.

Assessment 2: Plan

Weight (%): 50%

Word Count or Equivalent: maximum 10-minute presentation or equivalent

Professional Development Plan

You will present a reflective analysis of your learning experience during your placement. This can include a pre and post placement skills audit; identification of new knowledge and skills gained; a strategy to further enhance your professional identity, values, and practice; your reflections and recorded employer feedback and any relevant reflective theory, or tools that have helped you to reflect and to identify areas for future development or planning.

Each summative assessment will be preceded by an opportunity of formative assessment accompanied by formative feedback.

Reasonable adjustments for the assessment will be confirmed with students that have a support plan in place.

Mapping of assessment tasks:

Assessment components	LO1	LO2	LO3	LO4
Project	X	X		X
Plan	X	X	X	

Industry Placement SAI501

The above assessment components are summative. Students will have the opportunity for formative assessment and feedback before each summative assessment.
